

XStreme™

Vapor Solutions

XStreme™ Vapor Solutions are a waterless blend of Ecolo's patented essential oil technology specifically designed for use with XStreme™ Vapor Units. When vaporized, the ultra fine particles of XStreme™ Vapor Solutions neutralize a broad spectrum of nuisance odors associated with organic wastes. Odor molecules are converted into non-volatile compounds to dramatically reduce odor concentration and intensity.

XStreme™ Vapor Solutions contain complex blends of essential oils and odoriferous organic compounds common to Ecolo's AirSolution™ line but require no mixing and are highly concentrated. Compared to conventional misting, the ultra-light particles are able to easily disperse throughout all parts of an enclosed space for uniform coverage and intensity.

XStreme™ Vapor Solutions are safe to handle and use in areas with human contact.

Instructions for Use:

Ready to use. No dilution required

Application Method:

XStreme™ Vapor Solutions should be dispensed using Ecolo AirPro™ product line and XStreme™ Vapor Units only. Application rates vary depending on odor source, intensity and size of area to be treated. Common indoor trash room application rates: 500 ml (16 oz)/300 sq.ft./30 days Effective in cold weather climates to -10° C (14° F)

XStreme™ Vapor Solutions	#8015	#8023
Odor Characteristics	Balsam Spruce	Citrus Blend
Appearance	Clear liquid	Clear liquid
Specific Gravity (@20°C)	0.940 - 0.955	0.935 - 0.950
Product Code #	6 X 500ml 50-XST-8015-B6.5	6 X 500ml 50-XST-8023-B6.5
	4 X 1L 50-XST-8015-B41	4 X 1L 50-XST-8023-B41
	4 X 4L 50-XST-8015-B16	4 X 4L 50-XST-8023-B16
Application	Effective on animal holding areas, slaughterhouses, sewage, wastewater and other organic odors	Effective on dry wastes and is recommended for garbage rooms and disposal sites

XStreme™ Vapor Solutions

**Waterless Odor Neutralizer
Air-Contact Technology
Safe, Immediate
& Long Lasting**

Applications

- Trash rooms
- Trash chutes
- Exhaust stacks
- Greenhouse exhaust
- Washrooms
- Kitchen exhaust
- HVAC
- Hotel rooms
- Retirement homes
- Ambient scenting

Types of Odors Treated

- Hydrogen sulfide
- Mercaptans
- Reduced sulfur compounds
- Organic Acid Odors
- Decay
